SING PORTABLE!

SUPER-PORTABLE KARAOKE PLAYER

A 1000-song karaoke player that fits in your coat pocket? That's the SING Karaoke Microphone. It's a super-portable karaoke machine!

The secret is that all the music and guide-lyrics for 1000+ songs are on a tiny 1cm square karaoke song chip. That fits inside the SING portable karaoke microphone .

FITS IN A SHOULDER BAG

The SING karaoke Microphone fits in the free leatherette carrying case.

The carry case in turn can be slung over the shoulder or hand carried.

So it's really easy to take your SING karaoke player out and about to start the party at your friends and family's place.

SING THOUSANDS

1000+ KARAOKE SONGS ON EVERY SONG CHIP

Not a few, not ten, not even a hundred karaoke songs -
Literally thousands of karaoke songs at your fingertips!

SING comes with a free song chip with 1000 songs. And there's
space for 3 more song chips with 1000s more karaoke songs.

DIFFERENT LANGUAGES

The SING karaoke mic comes with a free English
language song chip. SING also has song chips
available for the following languages.

- Tagalog (Philipino)
- Chinese
- Vietnamese
- Thai

SING IN DUET!

DUET WIRELESS KARAOKE MICROPHONE

The SING Duet Karaoke Microphone doubles the karaoke fun. A second SING Karaoke Microphone is a great way to get more of your group singing.

The Duet is a wireless microphone. It operates from the main "wired" Karaoke Microphone.

USE IT BY ITSELF

The Duet wireless Karaoke Microphone can be used alone, as long as the main microphone is on. This gives you more freedom to sing - and to try out your dance moves!

The Duet Karaoke Microphone has its own keypad to dial up songs.

HAVE A KARAOKE CONTEST

Duet Karaoke Microphone can be used for a singing contest or duel: The system "scores" each singer so each person or group can try to outdo the other!

SING EASY!

ULTRA-EASY KARAOKE SYSTEM

All you need to get the party going is a standard TV system to plug in your SING Microphone. Never again will you be tied to huge discs or heavy DJ equipment for your karaoke fun!.

UP AND SINGING IN SECONDS

The SING karaoke system gets up and going within seconds. Just look up the song book and dial in the number of your song and you're away singing! It takes only seconds for your song to start.

There is an easy keypad to dial up your songs, just like dialling a phone number. You can even line or cue up songs on in advance.

SCORE YOUR SONG

This karaoke system also scores your song according to your singing quality. Are you a "superstar" or do you "need some work"? Don't worry...this feature can be turned on or off!
